

## John L. Terry, III

Executive Director

Kid-Safe Communities / Women-Safe Communities

John L. Terry, III is a long-time resident of the River Valley, having graduated from Russellville High School and Arkansas Tech University. He is married, with six children, and makes his home in Russellville, AR.

John is a certified marital arts and self-defense instructor, and is an outspoken advocate for children's and women's danger awareness issues. He is a member of the National Crime Prevention Association (NCPA) and Crime Prevention Council of America (CPCA).

John is an ordained minister and serves on a number of professional martial arts associations and non-profit boards. He is also a Chaplain with the Martial Arts Chaplains Association.

John is an avid martial arts enthusiast, and a self-defense instructor. He is committed to teaching children and women how to defuse potentially dangerous situations or react and respond to neutralize a threat as a last resort.

## Women-Safe Communities

The Women-Safe Communities expands upon the successes achieved with the KSC Kid-Safe program by focusing on the unique safety and protection needs of women.

Every 2 minutes, a woman is raped in the US. Women from every walk of life, age group, race, and economic status have been victims of sexual assault.

Women-Safe Communities focuses on teaching women to be "danger-aware" as they learn how routine things they do during the course of everyday life that can make them more vulnerable to attack.

Women-Safe Communities also teaches simple but effective defensive countermeasures to avoid becoming a victim, as well as practical self-defense techniques when escape is not an option.

Contact our office for more information or to schedule a Women-Safe Seminar.

Helping Families Raise "Kid-Safe" Kids, Once Child at a Time

## About Kid-Safe Communities

Kid-Safe Communities is a proactive, non-profit organization dedicated to the prevention of

*Our children should be able to enjoy their formative years without fear.*

child abuse, molestation and abduction of our children.

It is a national educational system that teaches and informs children and parents about "Danger Awareness".

Kid-Safe Communities provides families with resources that can help expeditiously disseminate information about abducted or lost children.

Kid-Safe Communities has recruited and trained a National Staff and a network of Advocates who work at providing both education and practical self-defense techniques to help women and children avoid and defend themselves during dangerous situations.

Thousands of young boys and girls are assaulted, sexually abused or abducted each year and we must work harder to reduce this number and increase the number of pedophiles that are arrested and put in jail.

## What We Do

Kid-Safe Communities is working diligently with Local and State Police Agencies and the FBI to help identify and apprehend these pedophiles. Field Agents of the Kid-Safe Communities are asked to:

- ◆ Collect and disseminate information about lost and missing children.
- ◆ Assist local law enforcement agencies in your area with pro-active education.
- ◆ Act as a liaison between the Kid-Safe Communities and their neighborhood.

## Educational Workshops

Kid-Safe Advocates provide several educational workshops to inform the public on the lures and tactics of predators, safety at home and on the Internet, danger awareness, practical self-defense techniques, and related safety tips.

Workshops can be tailored to parents or children, and are presented in a manner designed to inform, not to create fear or anxiety. Content is designed to be age-appropriate, depending on the venue.

Self-defense workshops present practical ways for children to learn how to respond to predator advances using effective countermeasures.

## Scheduling An Event

Kid-Safe Advocates are available to speak to school groups, PTA's, church, civic or community groups upon request. Most workshops last 45 minutes to one hour in length. There is NO COST for a Kid-Safe educational workshop.

There are four basic Kid-Safe workshops:

1. Profile of a Predator & Home Safety
2. Predator Lures and Defensive Countermeasures
3. Molestation, Abuse & Internet Safety
4. Fire Safety, Lost Child, Safety at Home

We also provide access to Child Identification Kits, Fingerprint Kits, Online Child Profiles, and educational DVD's to help supplement the safety information provided during our workshops. These supplemental tools are available at a nominal cost. Contact a KSC Advocate or our office, below, for details or to schedule a workshop.
